Prize Drilling in Which a Number of Cantons Take Parl-A Dress Parade and General Review of the Uniformed Men Complete the Day's Program.

Chicago, Aug. 6.—About 50,000 visitors, including ladies, have so far arrived in the city to participate in the Odd Fellows' cantonment. Every train coming in yesterday brought one or more cantons, each numbering from fifteen to fifty men, exclusive of officers, and every department commander and staff officer is now on the ground, the last having acrived yesterday in charge of the Dhio cuntous.

Buffalo canton, not being on hand, Cauton London, No. 1, of London. Ont., was the first to enter the lists. They showed up well in general appearance, and did fairly well in the drill. Curton No. 1, of Columbus, O., came

next. Their soldierly appearance was loudly cheered, their sword exercise evoked applicate, but they were weak in their marching evolutions.

The third competiting carton was Occidental No. 1, of Chicago. They were greeted with an ovation. Their marching was especially fine, and other movements excellent.

The dress purified was late in forming owing to the delay crissed by the prize drill that preceded it. Ten cantons of uniformed patriarchs took part. The movements were gone through with a clock-like precision and the sight was an inspiring one.

After dress parado a general review had been evdered and the cuotons, company front, marched past Gen. Nicholson and his staff, after which they broke

Harris, a mail clerk running between this city and St. Louis on the Chicago and Alton road, has been missing since Sunday morning, when he registered at the Union depot in St. Louis, and is believed to love stolen registered mail matter vidued at \$5,000. Harris was head clerk and had three assistants.

Within five minutes after the train's nerival in St. Louis Harris was missed and thus far not a trace of him leas been discovered. Yesterday aftermoon a pouch which contained registered mail was found under a pile of sacks in the car. It had been cut from end to end and all of its contents taken.

In describing the robbery Postoffice Inspector Junes Stnart said last night: "The clerks usually finish their work when the train is about sixty miles this side of St. Louis. The assistant clerks then sleep until the train stops at the depot in St. Louis, but the head clerk stays awake. I pour arriving in St. Louis the head clerk registers at the depot his name and those of his assistants, and all four accompany the mail to the postolice, where receipts are given for the pouches. BITTER POLITICAL CAMPAIGN.

It Emis in a Lot of Promisenous Knock-Down and Drag-Dat Fights.

CHARLESTON, S. C., Aug. 6 .- The most iatensely bitter political campaign ever held in this state was concluded at Waterhoro yesterday in the midst of a dreacang shower of rain and a complete collapse of the platform and a lot of promisenous knock-down and drag-out tights. The lie, which has been a common occurrence at the meetings of late, was not exchanged from the stand, at least not the lie direct, but the crawd, which unmbered 1,000, indulged in it quite frequently.

lu one of the scrimmages an enthusi-astic struight out had his head broken by a Tillman towic norrshal and several Tillmanen thusiasts were ladly handled. The whole state is glad that the campaign is over. The result is that Tillmun has 187 of the 320 votes elected to the convention. But the fight is not yet over and the straight out Democrats do not give in. They will fight Tillman to the bitter end.

KEMMLER'S LAST DAY. The New Mode of Execution Will Soon

AUBURN, N. Y., Ang. 8.—Shortly before 11 o'clock last night invitations were issued to F. W. Mack, of the Associated Press, and George Grantham Bain, of the United Press, to attend the execution of Kemmler in the capacity of witnesses. The warden stated to these gentlemen that they were wanted not as press representatives but as citlzens. It is not yet known just what time to-day the execution will take

Electrician E. A. Kreiger, of Cornlag, will be Mr. Davis' assistant in the manugement of the electrical apparatus. He has been here for two days. All of the witnesses from abroad are now here

In conversation with the special correspondent of the Unifed Press yesterday, Dr. Sou hwick, the author of the new mercod of execution, told some interesting things about it. "I have came prepared for the antopsy," he said, "with thermometers, etc., with which to take the lemperature of the remains so as to be sure that death lee-intervened before the surgeou's knife is used. The law requires that the autopsy shall take place immediately, but that will be interpreted to mean within a decent time. So soon as the temperature of the man is below the point where life can continue to exist, the operation will be begun. So that explodes the idea that some people have had that if the electric shock did not kill him the surgeon's knife would.

"Yes," said Dr. Daniel, who, with Dr. McDonald and Dr. Spitka, will have shellowed and Dr. Spika, will have charge of the nutopoy, "there is no necessity for performing the operation directly after the shock has been administered. There would be a great public outcry if we did. It is likely that several hours will intervene between the time when the name is killed and the

time of the nutopsy,"
"I have been asked very often," said Dr. Southwick, "whether the death deal would be instantaneous. That is dependerd on what you are pleased to term instantaneous. You say that the sensation when the shock of touching your finger end is transmitted to your braic is instantaneous. That sensation travels at the rate of 260 feet to the second. Now the rate of the electric current is one thousand times as greatthat is, it will travel ut the rate of 250, 000 feet a second. There will be no struggle before Kenauler is put in the chair, I think. That is not the record of men who have been executed. They usually walk to the gallows quietly. As to the action of the current, you may he sure that it will cause one little twitch and then the body will be rigid and motionless. When the current is taken off it will collapse and be perfectly line."

Kemmler spent yesterday quietly. No sign was given him of his inqueding doom. His friend, the Rev. Dr. Hougletoo, accompanied by the chaplain of the prison, visited him and spent the greater part of an hour with him. They will be present at Kemunler's re-

Dreams.

Mr. Kirk's dreams are bad enough, but when he wakes up and finds it is all too true, the man is miserable.—Maysville Republican.

Mr. Kirk's all right. If his slumbers are disturbed by dreams, they are pleasant ones in comparison with the visions that must haunt Mr. Gilmore these nights. You see, our good but unwise friend, Mr. Gilmore, suffered the Jailership bee to come buzzing about his ears some years ago, and made no efforts to drive it away. Thereupon he began "trimming" and "shaping up" for Mr. Dennis Fitzgerald's shoes, and has been at it ever since. Though a Republican, he voted for the Democratic nominee for Jailer eight years ago, (Mr. Fitzgerald). Four years ago he did some more "trim ming," by failing to vote against the Democratic nominee for Jailer. We can not say positively what actuated him on these two occasions, but we have our opinion on that point. We are inclined to believe that as far back as eight years ago Mr. Gilmore had fixed his eyes firmly on the Jailership and was "casting an anchor to windward," to use the language of the "Plumed Knight." He knew very well that the best Republican in the county stood no show of election without Democratic assistance, and he was paving the way for his contest for the office. Well, that contest has been fought, and we regret to announce that he succeeded in leading a considerable number of his good Irish Democratic friends out of the fold, temporarily. But with all this assistance he lacked nearly 400 votes of reaching the long-wishedfor goal. He ought, and no doubt does, feel grateful to his Democratic friends. Had they not gone to his rescue, he fines during the month, which had been would have shared Tom Forman's fate.

The Census Worthless.

Well, well! What's the matter with the Republicans, anyway?

Blaine, Plumb and many others prominent in the ranks of the G. O. P. are jumping on the McKinley Tariff bill and tearing it all to pieces.

Nine out of every ten Republicans in the North are opposed to the Force Election bill, which their leaders, Reed, Quay, Dudley, Davenport & Co., are trying to pui through Congress.

And thut's not all. The Cincinnati Commercial Gazette, the great Republican organ of the We t, steps to the front and denounces in unmeasured terms the census that the Republican administration is now engaged in taking. This Republican organ doesn't mince words, but speaks right out in meeting. Here is what it says:

are nearly all complaining. Cincinnati | Figs. has not made any kick, although, in order to get at the facts, the police should have counted the population. This could have been quickly and correctly done, but was not attempted, and now Cincinnati is to appear in the record as having 296,000 people, which is at least 30,000 short of the mark. This the school census and voting population conclusively show. What, then, is an enumeration made by the Government worth? Not much, if anything. Some people undertake to say that the imperfections are due to newspapers that advised people not to answer certain ridiculous questions, thus making light of the whole business. The newspapers would not have done that if questions. It required an enumerator in place. a family of six to spend au hour in taking down answers to the long string of printed questions, many of which were useless and many of them important. For this work the official was entitled to less than 25 cents. No wonder the work was not intelligently or correctly done. No wonder, either, that in many places the returns were padded.

"Now vast sums of money will be spent in preparing and publishing the incorrect returns collected, and in five years or more great volumes will be printed to find their way to the junk shops with other public documents equally useless."

Maysville is not making much of a kick, but the fact remains, nevertheless, that she is put down by the enumerators as having a little more than 6,000 people.

THOMAS A. DAVIS, P. M.

Judging by that majority of Longmoor, it doesn't look such like the G. O P. of Kentucky will very soon enter that "land of promise" mentioned by the Maysville Republican last Saturday.

THE Republican remarked last Saturday that "the Bourbons are apathetic or disgusted," and that "the Union Democratic element is in open revolt." This was all balderdash, and the editor knew it when he wrote it. Look at Longmoor's majority.

HERE's a straw that shows the drift of the political current out West. A Ground-Hog Case

A boy was digging with an old hoe, as if for dear life, in an embankment at the roadside. President Celmon Resigns.

LONDON, Aug. 6.-A dispatch to The Times from Buenos Ayres says that President Celman, having been abandoned by Pellegrini, Roca, Pena and Garcia, thus becoming completely isolated, has been forced to present his resignation to a joint meeting of the chambers. The chambers have the constitutional right to decide whether the president's reasons for resigning are sufficient to warrant the acceptance of his resignation. Celman declares that his resignation is irrevocable.
